MESSAGE:

Ma'am,

I am a First Sergeant in the United States Air Force stationed at Tinker AFB Oklahoma and my career is coming to an end after 22.5 years. i am a resident of Alaska though. i have been all around the world so home was really where you lay your head at night. When i was stationed at Eielson AFB from 1999 to 2002, i truly found home. If you we to visit my office, you would be able to see Alaska is in my heart. (Go Ice Dogs!) Currently, my wife is attending OU in their pharmacy program. When she graduates in 2011 it is our full intention to move to Alaska for the rest of our lives. I am retiring but i am asking for a special request. If at all possible, i would like a flag flown over the Alaska State Capital versus the United States Capital or both but the priority is the state capital. I cant find any information to lead me to right points of contact. Can you help with a POC?

VR MSgt Dale Brownlow

MESSAGE:

We all knew what a lousy job Murkowski did as governor.

But one thing that he did do --- is that he actually responded to e-mails and did not justs end out one automated message after another.

We (every single hockey player in Anchorage) would like an answer.

Why did the Governor ask for our vote; indicating to us that she supported hockey?

Thank you for NOTHING Palin

You've let everyone in the hockey community DOWN.

SHAME ON YOU.

MESSAGE:

When I first heard of your veto's I was a little upset but thought something had to be vetoed. I was starting to accept a lot of them until I heard of some other things that have been approved. I am a strong supporter of a second ice rink at the McDonald Center in Eagle River. Reid McDonald, along with several from the Eagle River community worked hard to get the approval of the second rink just to have it ripped out from under us. The funds being asked for were even going to be paid back. This is a rink that supports 3 High Schools, 2 hockey associations, figure skating, car shows, wrestling matches, yearly special olympics, plus several other events. It also gives people of all ages a place to walk/run track. The MAC has been here for 20+ years started by a highly respected coach and friend, Harry McDonald. Reid is following in his fathers footsteps. Reid will bend over backwards to do what he can to help the kids in the community. With Eagle River being one of the highe!

st growing community in Alaska, we need a second rink/rec center. The kids of Eagle River need a place to go for fun to stay out of trouble and gangs. I have 3 kids who spend most of their time at the rink. With that said, when I heard that this rink is now not going to happen, I was devastated along with my kids. But this was a lesson learned for me to teach my children. "It is not a State responsibility." But then I see that a $600,000.00 commercial kitchen for the Wasilla Sports Complex was approved...WHAT????? If it is not a State responsibility for an extra rink in Eagle River, then how can it be for a kitchen. What are you planning on having steak and potatoes at games? Or better yet, how can it be priority over a roof at the Sullivan Arena that holds many events there. What is going to happen when that roof collapses with 6000+ people in it. What this shows me is favoritism for the valley. bleachers in Palmer, and this kitchen. Chugiak's stadium needs new turf...it wi!

ll save money in the long run. I found this out from a studen!

t at Chugiak High School. But I guess we will have to wait for the next governor to approve it. Cause that is where my vote will go. Along with several from the Eagle River community. What did you approve for Eagle River, Anything? I hate to sound harsh for that is not the type of person I am. But I feel like if one rink is not a state responsibility than no rink is. I do hope to hear back from you.

MESSAGE:

Dear Governor Palin,

I disagree with your budget veto of the Fire Island wind project. This project is an important, visible commitment to alternative energy sources. It also begins to address concerns we all have about global warming. I was very sad to hear you vetoed it. I hope your opinion changes and you can support this project in the future.

Sincerely,

Alan Smith

Another kill for Sinnott. My advice to all the people out there who are bear lovers, until there is a TRUE emergency, don't call the Fish and Game. These last two bear kills just don't make sense. What? a kill because a bear was walking in a residential area? What happened with the trapping method? Couldn't trap a bear? Aren't Fish and Game, R. Sinnott trained in trapping bears? Especially this small one that was only a 250 lb female. Yes,. we know the meat goes to charity, but with the senseless increase of killings we wonder who gets the bear hides in this deal? Among other body parts. Just doesn't make sense, for one who has lived with bears for so many years and never a kill or incident in the High Sierras of Mineral King. This Rick Sinnott should be sent over to Unalaska to kill the rats infestating the land, and to help with his trigger happy affliction.

What: King Island Reunion

When: July 21, 2007

Where: Stork Park, Anchorage

Why: To bring together Alaska Natives who by launguage barriers, distance, etc. have not been reunited for many decades.

The Non-Profit Alaska Moving Image Preservation Association's Executive Director found out we are having our KI reunion, as did the press, and think this will be big. Michele Miller of AMIPA recommended I invite a VIP speaker. This is why we really want the top-dog.....no disrespect intended...to come to our gathering. This is important for Alaska, because of the old Father Hubbard silent tapes that are historic. AMIPA intend to video elders to learn more about the tapes before the only people alive - the elders die off with that valuable information.

Please consider coming to our event for a brief but powerful appearance! Speaking will begin at 1:00pm.

Thank you sooo much for considering our event! Sincerely, Tom

Subject: DEC Onboard fishing processing requirements/Mr. Stopha's concerns

Dear Mr. Stacey:

Thank you for your email regarding Mr. Stopha's Compass Piece in the June 14th Anchorage Daily News. I appreciate you taking the time to write to me with your concerns. As you know, I do not support saddling any industry or individual with unnecessary government regulation. I will do my best to balance the state's need to protect human health and promote fish quality with the practical needs of fishermen and fish processors. I'll explain.

DEC has the statutory obligation to ensure that seafood processed in Alaska is safe for consumers to eat. With the recent reporting of contamination in seafood from other parts of world, it is all the more important we maintain the good reputation of Alaska seafood. There is a significant risk that Alaska salmon that is not properly processed will lead to health problems. A single episode like this could not only harm the consumer who eats tainted fish, but also substantially affect the reputation of the Alaska seafood industry.

DEC food safety and sanitation regulations allow limited processing of salmon (gilling and gutting) on board fishing vessels. Although this practice creates some risks, including less opportunity for oversight, it is allowed to accommodate fishermen who are too far from processing plants to transfer their fish before they begin to decompose.

I informed Mr. Stopha in several letters sent to him before publication of his Compass Piece that DEC will be inviting input from the public this fall on whether the onboard processing regulation Mr. Stopha is concerned about should be revised. We chose to hold public meetings in the fall because we anticipate this will allow more stakeholders to participate. My staff and I have also informed Mr. Stopha that we are ready to work with him if he wishes to apply for a small vessel processor permit under DEC's current regulations - which does not need to cost as much as he states in his Compass Piece.

I know our fishing industry supports efforts to protect the reputation of Alaska seafood. I look forward to working with all stakeholders this fall and reaching a consensus on how we can both protect seafood quality and accommodate practical needs of our fishermen and processors.

If you have any specific questions regarding our seafood processing requirements or plans for this fall, please call Kristin Ryan, Director of Environmental Health at 907-

269-7644. Thank you again for your interest.

Regards,
Larry Hartig
Commissioner
